

# B-8 Bollard Collection

## *Decorative Steel Bollards for Pedestrian/Traffic Control and Security Barriers*

Our B-8 Bollard Collection offers straight, clean lines with choices of square or round reveals at the top or bottom of the bollard. Get both form and function with elegant presentation and perimeter control that these bollards offer. Three mounting configurations are available for these fully welded B-8 bollards: removable, permanent embed or surface mount.

- Available in schedule 10, 40 or 80 pipe, as required
- Bollards available in 30", 36", 42" or 48" standard heights
- Choose from three mounting styles: surface, removable or permanent embed
- B-8 Bollard Collection has optional eyebolts

The B-8 Bollard Collection includes removable, permanent embed or surface mount bollards that are manufactured from schedule 10, 40 or 80 pipe. Removable bollards offer a visual deterrent and are easily taken out for emergency or service access. These bollards are available in many standard powder coat colors.

For permanent embed use, lower reveals may be eliminated.

# B-8 Bollard Collection

## Specifications

| Part No.        | Description                                  | Size (W x H) | Weight | Mounting |
|-----------------|--|--------------|--------|----------|
| Bollard Options |  |              |        |          |
| B-REC4          | Additional 4" Receiver for removable bollard |              | 22     |          |
| B-RCC4          | 4" Receiver Cover for removable bollard      |              | 4      |          |
| B-LWC           | Lockwell Cover                               |              | 1      |          |
| B-EB            | Eyebolt (each)                               |              | 1      |          |
| B-PD            | Brass Padlock                                |              | 1      |          |
| B-RLWC          | Retrofit Lockwell Cover                      |              | 1      |          |

B-8 Bollards are available in 30", 36", 42" and 48" lengths.

Choose from several standard powder coat colors. Bollards will have a zinc rich undercoat applied and a polyester based powder coat on top.

**Bollard Options:** Schedule 10, 40 or 80 pipe, eyebolts.  
**On removable bollards:** Receiver cover, lockwell cover and padlock.  
**Mounting:** Surface, removable or embed.

**NOTE:**  
 1. Depth and diameter of installation hole may vary with soil conditions. Consult project engineer for correct dimensions.  
 2. REMOVABLE BOLLARDS ONLY: Receiver must be installed in drainage rock. Improper installation will void the warranty.

For more information on our force protection products (including Planter Barriers, GFRC and Lit Bollards), see the website.
