

Lead Time Expectations & Information

- All products are made-to-order.
- Lead times start from the time a project is released for production. Release requires a deposit and submittal approval.
- Custom projects or products with standard options include a development phase, which adds to your lead time. *See chart below.*
- A Project Advisor will provide you with a confirmed timeline for your project, when the order is released for production.
- Please notify us of critical deadlines before placing your order. Partial shipments and/or expediting may be available if required.
