

Montara Collection

Inspired by the serene and majestic coastline of Northern California, Montara is a sculptural, modern take on a classic mid-century organic shape. The Montara Collection features versatile forms with rounded edges, which work together seamlessly, elevating any commercial or residential space.

Made in Glass Fiber Reinforced Concrete (GFRC), Montara planters are durable in all climates and lighter than standard concrete.

Montara Collection

- Glass Fiber Reinforced Concrete (GFRC).
- Suitable for indoor or outdoor use
- 13 sizes
