SHOW STOPPERS

FIND THESE EXHIBITORS AND MORE AT THE 2023 ASLA EXPO IN MINNEAPOLIS ON OCTOBER 28 AND 29.

SIT INTEGRATED TABLE

Green Theory's Sit integrated table is made entirely from metal, combining contemporary style with functionality. Fully open sides make this picnic-style table accessible for all users. It's available in stainless steel or marine-grade aluminum and offers myriad custom powder-coat color options. ●

BOLINAS

These bold planters from Tournesol are inspired by the rugged coastline of Northern California. Their substantial size and scale make for a dramatic presence in outdoor spaces, but thanks to their glass fiber reinforced concrete composition, they are lighter than standard concrete. The planters are available in 19 sizes and various colors and textures. ●

X-TREME NINJA COURSE

Greenfields Outdoor Fitness has found a challenging way to unite play and fitness for young adults. Choose from four different ninja courses that offer many configurations to test strength, agility, and endurance at any skill level. The range creates opportunities for healthy, competitive activity at parks, schools, camps, and other public outdoor spaces. ●
